

Puzzle #12: ~~To Make An Omelette~~ To Solve This Puzzle You Have To Break A Few Eggs

This puzzle starts with the eggshell included in your puzzle materials. The egg is hollow, and inside is a small note giving you the location to another egg. To get that note you will need to break open the egg.

Go ahead. Break it.

Really... crack it open.

Done?

Good.

Follow the coordinates therein to find another collection of eggs. Take one from that location (leaving the others eggs for the other teams) and break it open too. You'll want to break the eggs carefully so that you can be sure to retrieve whatever is inside (again, you only get to take one from each collection you are led to).

Repeat this process until you find a Clutch-of-Eggs on a sticker.

“This is going to be easy,” you may be thinking.

Yeah, well, you haven't seen the other eggs yet...
